Saturday, June 17. 1704.

From the Paris Gazette, dated June 7.

Naples, May 6.

THE first of this Month being the F^east of Ascension, and of St. Philip, whose Name the King bears, a Royal Chappel was held, Te Deum was sung, and a general Discharge made of the Artillery and small Arms of the Castles and Garrisons of this City. In the Evening other publick Rejoycings were made, and four large Pyramids of Fruit and Sweetmeats were set out to be scrambled for by the People; and two Fountains ran with Wine; The Court was entertain'd with a Comedy in the Neapolitan Language. The Garrisons of the Places and Forts on the Coast, are reinfore'd for the greater Security of the Kingdom, because a Report is spread that a Fleet of the Enemies Ships is coming into the Mediterranean. Don Dominico de Luna, who upon his Trial was declar'd Innocent of the Crimes against the Government he stood charg'd with, is set at Liberty, and his Accusers are order'd to be prosecuted.

From the Amsterdam Gaz. dated June 13.

Amsterdam, June 13. The last Letters from Poland, which are of the 30th of last Month inform us, that most of the lesser Diets held in pursuance of the Cardinal Primate's Universalia, are either broken up without doing any thing, or prorogu'd to another time; whereupon his Eminency has issued new Circular Letters to dispose them to meet all again and to pass vigorous Resolutions in favour of the Confederacy against the King. The Confederates for the King, who are now assembled at Sandomir, act with more Steadiness and Unanimity. One of the chief Officers of the Dukedom of Lithuania is elected Marshal of the said Confederacy for the King; and the Council assembled at Sandomir have under Debate what Means are properst to be used to induce all the Senators and the Deputies of the greater and lesser Poland, as also those of the great Dukedom of Lithuania, to Sign the A^ct of Confederacy for the King. An Ambassador from the Ottoman Porte is shortly expected at Court. Monsieur Oginski has beaten a Party of Swedes, killing 320 of them on the Spot, and taking 30 Prisoners. An Officer in the Troops that continue Obedient to the great General of the Crown, who is now at Warsaw, being taken by a Saxon Captain who was out with a Party of 100

Dragoons, is carried to the King at Sandomir, to be examin'd touching several Letters that were found about him.

From the Amsterdam Cour. dated June 14.

Dresden, June 6. Monsieur Patkul is come hither from the Court of the King of Poland, to give Orders for a Body of Saxon Troops to draw together at Juven, in the Neighbourhood of which Place a Bridge is laid on the River Oder, for the Troops to pass over it. An Express is likewise arriv'd from his said Polish Majesty's Court, and brings Advice that the Senators assembled in Council at Sandomir, have pass'd a Vote that the Cardinal Primate is guilty of the Crime of High Treason, and also the great General of the Crown; and that the said Senators have given the under General of the Crown a certain time to declare which Party he is for. 'Tis not doubted but this Council at Sandomir will terminate to the King of Poland's great Advantage. Prince Alexander Sobieski having refus'd to stand Candidate for the Crown, the Cardinal Primate appears inclin'd to endeavour to make the King of Sweden Protector of the Republick.

Hamburg, June 10. General Reenschild having drawn together a Body of Swedes, seems to have a Design to march and fall upon the Saxons and other Troops of which the King has form'd a Camp at Sandomir. The City of Dantick having enter'd into the Confederacy against his Polish Majesty, 'tis thought the Cardinal Primate and the Nobility of his Party, will proceed to the Election of a new King without further delay the 19th of this Month. They write from Schoonen, that 6 or 7000 Men are about to march from thence to Prussia to reinforce the Army commanded by the King of Sweden at Heilsberg.

A Supplement to the Daily Courant of Saturday June 17. 1704.

London, June 17. Three Dutch Mails (the last of which is dated Tuesday June the 24th N. S.) have brought the following Advices.

The Paris Gazette of June 14. says not a Word of the 4 Dutch Battallions which the former Gazette from thence told us were every Man taken; And as for the 2 Dutch Battallions commanded by General Fagel which were surpriz'd near Abrantes by the Duke of Berwick, the last Paris Gazette relates, that they were surrounded on all sides, and after they had defended themselves till about 60 of them were Kill'd, yielded themselves Prisoners of War, *viz.* Major General Velderent, 35 Officers, (among which were 2 Collonels,) and 540 Soldiers. Their Colours were not taken, because General Fagel, who retired in time, carried them away with him. This Action pass'd the 27th of May. The last Letters (in the Paris Gazette) from the Army of Philip V. are of the 30th of the same Month, there is no account in them of any further Action.

From the Amsterdam Gazette, dated June 24.

Marseilles, June 6. The Count de Grignan receiv'd Advice by a Courier Yesterday, that the Enemies Fleet had appear'd off the Islands Hieres; whereupon the Count went away immediately for Toulon and other Places where his Presence may be necessary: He has dispatch'd Orders through the whole Province for the Militia to draw down towards the Coast, apprehending the Enemy may make an Attempt on the lower Provence with the Assistance of the Garrison of Nice. The Piemontois that were Prisoners at large here, are all secur'd. Yesterday the Enemies Fleet was seen standing along the Coasts of Provence towards Nice and Villa Franca. This Morning a Bark came in here, the Master of which reports, that 8 Days ago he saw in the Height of Carthagena a Fleet of Ships which he believes were French, because they carried white Colours. They write from Toulon the 5th that 6 of our Galleys are gone out to get a View of the Enemies Fleet; 2 Fregates are sent to meet the C. de Toulouse and acquaint him that the Enemy are on our Coast. Six Men of War lye ready in the Road of Toulon to put out and joyn the C. de Toulouse when he comes off that Harbour.

Paris June 14. We have Advice that Admiral Rook is in the Mediterranean with 27 Men of War and several Tenders, and that on the 28th of May he appear'd before Barcelona; The Prince of Darmstad sent a Drummer ashore with Letters for Don Francisco de Velasco the Vice-roy, and the Magistrates, to summons them to open the Gates. Which being refused; the Enemy threw in some Bombs, which did little Execution, and then stood away towards the Coast of Italy. We have Advice since, that they have appeared off the Coast of Provence; And that the Count de Thoulouse, who Sail'd from Cadiz the 25th into the Streights, has pass'd by Carthagena.

Some Advices say, Sir George Rooke has thrown some Bombs into Toulon, and is now at Villa Franca, where 1000 Vaudois with their Officers are arriv'd, and where a great Number of flat-bottom'd Boats are getting together, in order 'tis suppos'd for making some Descent.

The Siege of Suza is carried on with Vigour; they write from Turin, that the French have suffer'd great Loss in the Attacks they have already made, and that the Governoeur has acquaint'd the Duke of Savoy he hopes to keep the Place a Month. Whereupon his R. H. is making Preparations in order to endeavour to relieve it.

The Duke of Vendome has not laid Siege yet to any Place, or made any other Attempt. The Duke of Savoy continues encamp'd at Crescentino.

Letters from the Duke of Marlborough's Army of the 15th of June, Dated at Eber-spach, say; that the Prince of Baden, Prince Eugene of Savoy, and the Duke of Marlborough had a Conference the 14 at great Heppich; which being ended, the Prince of Baden return'd towards the Danube, Prince Eugene took Post for the Upper Rhine, and the Duke of Marlborough will proceed to the Danube.

The Leiden Courant dated June 25. says, Letters from Nuremberg advise, that the E. of Bavaria has separated his Troops from the Marshal de Marsin's; and that there is certain Advice by the way of Berlin, that the said Elector has quitted the French Interest, and declar'd for the Emperor and Empire.

Philipsburg, June 17. The Marshal de Tallard and Villeroi, and the Count de Coignies, are join'd with the Bodies they command; with Design to endeavour to pass the Rhine below this Place to make a Diversion, or to pass it above Strasbourg to march a strong Reinforcement to the Elector of Bavaria. Prince Eugene of Savoy is expected hourly here to command the Army on the Rhine; The Troops of Prussia that are on the Danube, and the Danes under the Duke of Wirtemberg, are to come and serve under him.

We are told in the last Advices from Vienna, that the Clergy in Obedience to the Emperor's Order for the Church Plate in his Hereditary Countries to be brought into the Mint at Vienna, have actually begun to send it in, in great Quantity.

The Action between the Camifars and the King's Troops, related in the Letters from Switzerland that came by the last Post, is not confirm'd by the Advices now arriv'd; in general some of these last Advices say there is no hopes of any Accommodation between the Camifars and the Royalists, that Cavalier has lost all Credit among them, that their Number is augmented, that they are now under Leaders that dissuade them from listning to any Proposals of Peace. On the contrary others say the Accommodation is indubitably in a fair way to be concluded; but none pretend it is yet actually perfected.
